

An Introduction to *A Course In Light*

A Course In Light offers a fresh perspective on personal transformation, providing a clearly-defined spiritual path to enlightenment. Based on guided meditation and self-study, this series of lessons brings insight, wisdom and practical application of the Principles of Light.

What makes this different from any other course? This course takes you step-by-step through your personal clearing. Through direct experience, you feel, sense and become aware of Light as a force. Energy surges through your body, mind and soul during meditations. It is a path that heals every aspect of your body and its egos.

A Course In Light is a personal journey for self-discovery and spiritual enlightenment. Through the loving guidance of ascended masters, this path is a source of growth, healing and wisdom. Based on the ancient teachings, it provides a bridge between all spiritual paths.
